"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee. Over ten years of business I have never had to make good on this promise. But I make it anyway for your protection.

2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.

3. A full thirty day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention. I encourage you to use the thirty days as an approval period. Feel free to show your purchases to other knowledgeable EAC members. Get a second opinion. All sales are final after the thirty day period, though I will certainly consider an extension upon reasonable request.

4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD.

5. All orders are sent postpaid.

6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown surfaces, some light pin scratches where corrosion was removed at K1 reverse." Here is a coin VF30 by

ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an

art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase. No unpleasant surprises!

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. I have yet to meet anyone who has bought coins merely as an investment who has realized a net return upon liquidation. I have, however, met numerous serious collectors, who having formed a discrimination collection over a period of years realized a substantial profit when their collection was ultimately sold. Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin dealers are often more than willing to give investment advice. As my good friend Jack Robinson (whose collection did very well for him when it was sold in 1989) likes to say: THINK ABOUT IT! When you ask a cat which canary to buy remember his first concern may not be how well it sings. There are many opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

INTRODUCTION

Our first list of 1999 comes to you with best wishes for the New Year. We have lots of new inventory including a great group of Half Cents, the finest known 1807 small seven over six S-272 from the Suros Collection, many other early date cents, plus some condition census level late dates. I have just returned from the sales of the George Suros and Roy Baker Collections; my purchases from which are offered here.

I will look forward to seeing many of you at the EAC convention in Cincinnati. Until then I will be attending Mid Year ANA March 10-13 and Baltimore March 18-21.

Our next auction will be in late May. We are presently accepting consignments for that sale.

1842 Breen 1C Second Restrike R6+ \$6500.00
NGC PRF64 RB. Golden olive brown with bluish steel overtones, probably dipped and retoned. The fields are nicely reflective, especially the obverse, which has deep mirrors. The only defects are very faint scuffs in the field right of star 5 and between star 2 and the chin, plus some very faint hairlines elsewhere on both sides. In addition, there are traces of lacquer in the dentils at star 2. The best markers to identify this piece are a tiny void in the planchet at the dentil roots under star 1, a tiny spot hidden in the hair over the Y in LIBERTY, and a tiny dark spot on the rim at star 12. This is the Breen plate coin used to illustrate the second restrike in his Encyclopedia. EAC graded Proof-60+. Superior 2/2/92:471.

Very rare series II restrike. Only fifteen examples presently known. This example weighs a heavy 86.4 grains. A beautiful coin with sea green fields and frosted devices.

About 30% mint red with great eye appeal. A mint made rim clip K1. Neat coin.

1851 C-1 ANACS PROOF 60

1851 C-1 PROOF 60 \$8500.00
This coin came from the recent John J. Pittman Sale. There catalogued as possibly proof. It now is housed in an ANACS PF 60 holder. The coin itself has razor sharp striking details and reflective surfaces. It has the characteristics of a proof coin. I have received opinions I respect split 50/50. These 1851 Half Cent proofs come from the same pair of dies as the business strikes. This example is in my opinion as proof as the others. If 1851 Half Cent proofs exist, they are more rare than 1831 business strikes.

1853

1853 C-1 R1 AU50. \$ 150.00
Sharpness AU55 but nicely recolored a lustrous steel brown Breen state III. An attractive example for the grade.

1855

1855 C-1 R1 MS63 \$ 500.00
Red and brown. M-LDS with some dishing of rims but a sharp central strike. Small speck of oxidation at inner curl. Excellent eye appeal.

Slightly sharper with a dull nick on top of the L in HALF.

1856 C-1 R1 MS64 \$1100.00

1857 C-1 R1 MS63+ \$ 850.00
Lustrous mostly red obverse with the reverse about 50% red; the balance toning to steel. Well struck with a full sharp date and no defects. A pretty half cent. In an NGC holder MS64RB.

LARGE CENTS

1793

1793 S-3 R3- FR2 CHAIN \$ 550.00
Close to the worst chain cent I have had to offer. But the date is completely readable. Thus raising this from BS1 status. It is however quite scudzy with some red and green corrosion obscuring most of portrait. The chain is mostly visible. The surfaces overall dark and corroded.

1793 S-9 R2 VF20 \$4200.00
VF25 Dark chocolate fields with lighter steel brown devices. Hard smooth appearing surfaces with some microscopic granularity under magnification. A tiny rim tic K2 obverse. Well struck and attractive for the grade.

1793 S-11c R3- VF30 \$6500.00
VF35+ Attractive light olive and tan color the result of an expert retoning. A tiny flake at left pendent of T in LIBERTY and a minor fissure above second A in AMERICA. A better planchet than is typical for this variety. Well struck with good eye appeal. A nice lettered edge wreath.

1793 S-11C WREATH
EX. RICHARD WINSOR-HERMAN HALPERN

1793 S-11c R3 EF45+ \$ 18,750.00
Medium brown with attractive lustrous surfaces. There is some minor, pre-striking planchet flaking notably at lower obverse. Well centered with a good strike. Equal CC#6. Ex. Richard Winsor, S.H.& Chapman December 1895, lot 820-S.H. & Chapman-Gary Fitzgerald-Auction 84, Stack's lot 1010-Herman Halpern 3/88:13.

1794

1794 S-21 R3 EX45 net \$5250.00
Sharpness AU50 or even better but the planchet has many extremely fine parallel striations on the obverse running northeast to southwest (as minted, of course). Otherwise the surfaces are virtually free of defects, a couple tiny tick marks hidden in the hair and a very light rim bruise at the R in LIBERTY are all I can find. Frosty light steel brown with reddish brown toning in the protected areas. Sharp and quite attractive in spite of the minor planchet problems. MDS. At the lower end of the condition census. Noyes photo #27391. Ex. Myles Z. Gerson 1981-1995 EAC:146.

1794 S-22 R1 VG8 \$ 295.00
Chocolate brown. Smooth defect free surfaces. M-LDS with swelling reverse. Choice for the grade.

1794 S-23 R4+ G6 \$ 425.00
Sharpness F12 with some extremely fine porosity on both sides, mostly in the protected areas. The only contact mark, and it is minor, is a rim nick at the I in LIBERTY. Light steel brown, the highpoints rather smooth and glossy while the protected areas are matte due to the microscopic roughness. The date and legends are complete. MDS.

1794 S-26 R2 VG7 \$ 250.00
VG10 Chocolate with lighter brown devices. A scratch in lower hair. Another through L of LIBERTY. Two die cracks reverse. A nice looking cent.

1794 S-28 R2+ AG3 \$ 120.00
Obverse G6 Reverse Fr2. Brown. Just a bit grainy.

1794 S-31 R1 VG8 \$ 295.00
Chocolate with some tan. Hard smooth surfaces.

1794 S-32 R2+ AG3 \$ 195.00
Sharpness G5 with lightly porous surfaces and a shallow lamination in the planchet affecting the ST in STATES. Rather glossy reddish brown with light brown highpoints. Rare EDS, both dies free of cracks.

1794 S-32 R2+ VG8 \$ 325.00
Sharpness VF20 but the surfaces are finely porous and there is a small pit mark at the dentils right of the forehead. The only contact marks are a couple very minor rim nicks. Fairly glossy light to medium steel brown. EDS with the obverse uncracked and the crack at the first S in STATES light.

1794 S-35 R5+ F12 \$4250.00
F15+ Medium steel brown. Smooth appearance with some microscopic pits rev K10-11. Some faint scratches in obverse field K2-4.

1794 S-38 R5+ AG3 \$ 295.00

A couple points sharper but porous, strongest on the obverse. The date is readable, although the bottoms of 94 are weak, and most of the legends are clear. Fairly glossy light steel brown and tan, a decent color considering the uneven surfaces.

1794 S-42 R4- VF20 \$1650.00

VF25 Medium chocolate brown. Hard smooth surfaces with some scattered light surface marks consistent with the grade. Quite scarce in higher grades.

1794 S-46 R3 G4 \$ 250.00

Slightly sharper with a small punch mark in the field before the eye and a hairline scratch slanting through the E in ONE, plus a few traces of glue on both sides. Glossy olive brown and steel. LDS with the obverse cracks strong and a sunken retained cud affecting the right half of the 4 and bottom of the bust. The edge lettering is blundered, reading ONE HUNDRED DOLLAR. A decent cent for the grade in spite of the minor distractions.

1794 S-47 R4 VG8 \$ 495.00

Sharpness VG10+ with slightly rough surfaces. Recolored a slightly glossy steel brown. The date and legends are clear. EDS. There is strike doubling on the lips and tip of the nose.

1794 S-47 R4- F15+ \$1500.00

Sharpness close to VF30. Attractive dark chocolate with lighter highpoints. Finely granular surfaces.

1794 S-51 R5- G5 \$ 295.00

VG8 or slightly sharper. Surfaces O.K., but an old thin scratch X on the reverse and a couple obverse pinscratches as well. Nice color. Scarcer variety.

1794 S-54 R3 F12 \$ 750.00

VF20 Chocolate with lighter brown highlights. Microscopically granular surfaces. A few ancient hairline scratches.

1794 S-57 R1 F15 \$ 650.00

Choice glossy brown. No defects worth mentioning. Scarce die state with reverse crack through ICA.

1974 S-57 EX-LORD ST. OSWALD ESTATE

1794 S-57 R1 AU50+ \$8750.00

Choice frosty steel brown with smooth, highly lustrous surfaces. There is just a bit of light friction on the highest points and no contact marks. The only defects are some tiny pre-striking planchet chips that didn't completely strike out near the dentils on the upper half of the obverse and at UNITED. In addition, there is a tiny flake out of the planchet, as minted, touching the right side of the 9 in the date. M-LDS with strike doubling on all 4 digits of the date and LIBE, the result of die bounce. A beautiful, well-preserved example that's near the lower end of the condition census. Noyes photo #31709. Acquired in the United States in the early part of the 19th century by Sir Rowland Winn (later Major the Lord St. Oswald, M.C.)-the Oswald descendants-Christie, Manson & Woods, Ltd (London) 2/92:283-Eric Streiner-Superior 10/11/92:69- Anthony Terranova-Roger Siboni-Chris McCawley-Walter Husak.

1794 S-58 R3 G5 \$ 275.00

Sharpness VG10 with slightly rough surfaces and some dull contact marks on both sides. The date is clear and legends all readable. Slightly glossy dark olive brown protected areas and light brown highpoints creating a nice two-tone contrast. LDS with a retained cud break at UNIT.

1794 S-58 R3 VF25 \$2650.00

Sharpness five points better with a light rim bruise at T in LIBERTY and an incomplete planchet, as minted, affecting the rim and dentils over UNI in UNITED. In addition, there are some tiny pre-striking planchet chips that didn't completely strike out at LIBERT. Glossy dark chocolate and steel with some lighter brown toning on the reverse, which has less gloss than the obverse. EDS, the reverse die uncracked.

1794 S-59 R3- G4 \$ 110.00

VG8 Dark and granular but free of defects.

1794 S-59 R3- G5 \$ 175.00

VG8 or sharper. Chocolate and tan but some old pinscratches. One under CENT.

1794 S-59 R3- G \$ 195.00

VG8 Black and tan. Rim bump K1 obverse.

1794 S-60 R3+ VF35 \$4500.00
Sharpness at least EF40 with a faint hairline scratch down the cheek and neck, a small rim nick at R in LIBERTY, and a few other minor rim nicks at AM, R1, and the right ribbon end. The rim over AT in STATES is slightly beveled due to an incomplete planchet in that area. Glossy steel brown and chocolate with a few very fine striations of reddish brown across the reverse, the result of some impurities in the planchet. While the description details many minor imperfections on this cent, it is actually quite attractive and has nice eye appeal for the grade. MDS, the obverse clashmarks and die cracks clear. Tied for CC#7. Noyes photo #28419. Ex. Tom Morley.

1794 S-61 R4 XF45 net \$9850.00
Sharpness near AU55 but nicely recolored glossy medium steel brown with some bluish steel overtones, especially on the reverse. There is a minor rim bruise left of the L in LIBERTY, a thin nick in the field under the cap, and a faint hairline scratch down the neck. A tiny fissure in the planchet barely affects the dentils under the fraction. The rim is very slightly beveled at the I in AMERICA and E in LIBERTY, the result of a marginally incomplete planchet in those areas. Tied for CC#7. Noyes photo #29981. The obverse and reverse are plated in the 1910 Elder-Gilbert book and the Chapman book. A sharp, attractive cent in spite of the minor distractions, and it comes with an outstanding pedigree. Ex. E. 1794 S-62 R4+ VG8 \$460.00
Sharpness F15 with a large X lightly scratched on the obverse and a pair of small rim bumps at S OF on the reverse. Otherwise the surfaces are very nice with just a few light contact marks consistent with the sharpness grade. Smooth glossy steel brown. LDS with a strong cud break at the rim under the cap.
